ACT on Alzheimer’s is a statewide, multi-dimensional collaboration seeking large-scale social change and building community capacity to help drive Minnesota’s response to Alzheimer’s disease.

**Dementia Friendly Accomplishments**

**Transforming Communities Across Minnesota**

- Health care providers and care coordinators trained on Dementia Care Best Practices (2017) - 400+
- Participants learn, share and innovate at Learning Summit for ACT communities (2017) - 150+
- Practical webinars educate providers and community groups
- Dementia Awareness resources help support community actions

**Implementing ACT Tools and Resources**

**Expanding and Adapting ACT’s Work**

- ACT’s provider tools help inform online curriculum for MN Health Care Homes
- Dementia Friends Minnesota program adapted for culturally diverse communities

Partners develop **MN initiatives** to promote national PBS documentary “Every Minute Counts”
Dementia Friends Minnesota is changing the way people think, act, and talk about dementia.

Minnesota

Land of 10,000 Dementia Friends

Strengthening through Partnerships

Ongoing technical assistance and support to ACT communities statewide

Funding support for healthcare practice change efforts and dementia friendly community engagement
