You are invited…

Preparing Cloquet for Dementia Luncheon

The Aging Well at Home Coalition of Cloquet, a group of medical, home and community based providers received a grant through ACT on Alzheimer’s® to examine the community’s dementia readiness and help create a dementia-friendly environment in Cloquet.

Because of your role as a community leader (ex., public worker, business owner, health care provider, faith community, caregiver, etc.), your perspectives would be invaluable to understanding the needs in our community.

Please join me to prepare Cloquet to meet the needs of people with dementia.

Date: September 24, 2014
Time: 12:00 PM – 1:30 PM
Location: Cloquet Community Memorial Hospital
512 Skyline Blvd., Cloquet, MN 55720

RSVP to Deb Lindamood call 218-879-9238 (ext.101) by September 18, 2014.

The prevalence of Alzheimer’s disease and related dementia is rapidly increasing. Recognizing that Cloquet has a growing older population, we need to prepare our systems and communities for the spiraling needs related to the disease. The number of people with Alzheimer’s disease and other dementia is expected to double for people ages 75-84 and triple for those over age 85. Younger onset Alzheimer’s, occurring in people under age 65, is also on the rise.
